Operation Bite Back: Rod Coronado's War to Save American Wilderness Dean Kuipers

Dean Kuipers takes us behind the scenes of the Animal Liberation Front and its punk-anarchist sibling the Earth Liberation Front, two of the most notorious and violent environmental groups and one of the FBI's biggest domestic terrorist priorities--even in the wake of 9/11. Kuipers tells us the story of ALF and ELF through Rod Coronado, an eco-terrorist and animal rights activist who has served jail time on several convictions in connection with his radical activities. From his teenage association with the *Sea Shepherd* and Earth First! through the federal manhunt that transformed him into a folk hero, Coronado's story parallels a movement that has led to over 1,200 acts of sabotage, \$1 billion in damages, and a legal showdown that will define America's relationship to environmentalism. Neither a biography nor a polemic about animal rights, *Operation Bite Back* tells the outlaw tale of a man who acted on well-defined principles to carry out a campaign of political sabotage, putting his life on the line for an environmental movement that ultimately couldn't afford to be identified with his extreme actions.
