Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) Anil K. Jain, Ruud Bolle, Sharath Pankanti

Biometrics: Personal Identification in Networked Society is a comprehensive and accessible source of state-of-the-art information on all existing and emerging biometrics: the science of automatically identifying individuals based on their physiological or behavior characteristics. In particular, the book covers:

*General principles and ideas of designing biometric-based systems and their underlying tradeoffs

*Identification of important issues in the evaluation of biometrics-based systems

*Integration of biometric cues, and the integration of biometrics with other existing technologies

*Assessment of the capabilities and limitations of different biometrics

*The comprehensive examination of biometric methods in commercial use and in research development

*Exploration of some of the numerous privacy and security implications of biometrics.

Also included are chapters on face and eye identification, speaker recognition, networking, and other timely technology-related issues. All chapters are written by leading internationally recognized experts from academia and industry.

Biometrics: Personal Identification in Networked Society is an invaluable work for scientists, engineers, application developers, systems integrators, and others working in biometrics.

From reader reviews:

Julia Jenkins:

Why? Because this Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) is an unordinary book that the inside of the book waiting for you to snap that but latter it will shock you with the secret that inside. Reading this book close to it was fantastic author who also write the book in such remarkable way makes the content interior easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This phenomenal book will give you a lot of gains than the other book include such as help improving your expertise and your critical thinking technique. So , still want to postpone having that book? If I were being you I will go to the e-book store hurriedly.

Kyle Guthrie:

Many people spending their time by playing outside together with friends, fun activity having family or just watching TV all day long. You can have new activity to spend your whole day by reading a book. Ugh, you think reading a book can definitely hard because you have to bring the book everywhere? It fine you can have the e-book, having everywhere you want in your Touch screen phone. Like Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) which is finding the e-book version. So , try out this book? Let's find.

Irene Allen:

What is your hobby? Have you heard that question when you got scholars? We believe that that query was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. So you know that little person such as reading or as reading through become their hobby. You need to understand that reading is very important in addition to book as to be the matter. Book is important thing to provide you knowledge, except your current teacher or lecturer. You find good news or update about something by book. Different categories of books that can you decide to try be your object. One of them is niagra Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science).

Christina Bales:

Some individuals said that they feel weary when they reading a e-book. They are directly felt that when they get a half regions of the book. You can choose the actual book Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) to make your own personal reading is interesting. Your personal skill of reading proficiency is developing when you including reading. Try to choose easy book to make you enjoy to see it and mingle the idea about book and examining especially. It is to be initial opinion for you to like to start a book and study it. Beside that the

reserve Biometrics: Personal Identification in Networked Society (The Springer International Series in Engineering and Computer Science) can to be your brand-new friend when you're truly feel alone and confuse using what must you're doing of the time.
