Topología de la violencia (Spanish Edition) Byung-Chul Han

En este ensayo, Han profundiza su análisis de la sociedad del cansancio y de la transparencia, buscando sacar a la luz las nuevas formas de violencia que se ocultan tras el exceso de positividad.

Hay cosas que nunca desaparecen. Entre ellas se cuenta la violencia. Su forma de aparición varía según la constelación social. En la actualidad, la violencia ha mutado de visible en invisible, de frontal en viral, de directa en mediada, de real en virtual, de física en psíquica, de negativa en positiva, y se retira a espacios subcomunicativos y neuronales, de manera que puede dar la impresión de que ha desaparecido.

Pero la violencia se mantiene constante. Simplemente se traslada al interior. La decapitación en la sociedad de la soberanía, la deformación en la sociedad disciplinaria y la depresión en la sociedad del rendimiento son estadios de la transformación topológica de la violencia.
