CAT35232 Historical: Liberation of Terra Classic Battletech Sourcebook by Catalyst Game Labs

In 2766, decades of careful planning and manipulation finally culminated when Stefan Amaris wiped out the entire Cameron dynasty in a bloody coup. Rallying the might of the SLDF behind him, General Alaksandr Kerensky immediately attacked Amaris Rim Worlds Republic, before turning his full fury against the Usurpers Empire, launching one of the greatest military campaigns in Inner Sphere history.

Historical: Liberation of Terra, Volume 1 describes the early years of the civil war that would ultimately bring about the final end of the first Star League. Covering the fighting from the coup itself to the bloody campaign for the Terran Hegemony, this book provides a hard look at the closing years of the Star League Era, and the fateful decisions that would eventually pave the way for centuries of Succession Wars to come.
