Stephen Ellis

Liberia was in the headlines in 1990 when thousands of teenage fighters, including young men wearing women's clothing and bizarre objects of decoration, laid siege to the capital, Monrovia. In response to the crisis, a West African peacekeeping force, ECONMOG, was sent to stabilize the country and prevent the main warlord, Charles Taylor, from coming to power. Seven years later, however, Taylor was elected President. The country had a fragile peace but the war had spread to its neighbour Sierra Leone. This book traces the history of the civil war that has blighted Liberia in recent years and looks at its roots in the way governments have been established in West Africa during the 20th century.
