Healing and the Mind

Bill Moyers

Healing and the Mind Bill Moyers

At last, the paperback edition of the monumental best-seller (almost half a million copies in print!) that has changed the way Americans think about sickness and health -- the companion volume to the landmark PBS series of the same name. In a remarkably short period of time, Bill Moyers's *Healing And The Mind* has become a touchstone, shaping the debate over alternative medical treatments and the role of the mind in illness and recovery in a way that few books have in recent memory. With almost half a million copies in print, it is already a classic -- the most widely read and influential book of its kind. In a series of fascinating interviews with world-renowned experts and laypeople alike, Bill Moyers explores the new mind/body medicine. *Healing And The Mind* shows how it is being practiced in the treatment of stress, chronic disease, and neonatal problems in several American hospitals; examines the chemical basis of emotions, and their potential for making us sick (and making us well); explores the fusion of traditional Chinese medicine with modern Western practices in contemporary China; and takes an up-close, personal look at alternative healing therapies, including a Massachusetts center that combines Eastern meditation and Western group therapy, and a California retreat for cancer patients who help each other even when a cure is impossible. Combining the incisive yet personal interview approach that made *A World Of Ideas* a feast for the mind and the provocative interplay of text and art that made *The Power Of Myth* a feast for the imagination, *Healing And The Mind* is a landmark work.
