“A timely, realistic thriller about the governance of online information” (*Kirkus Reviews*)—the second novel in a groundbreaking international thriller trilogy about a deadly game that blurs the line between reality and fiction.

It’s been four months since Henrik “HP” Pettersson was dragged into a ruthless Alternate Reality Game that nearly cost him his life. Although he now has everything he ever wished for—freedom, money, and no responsibilities—he isn’t satisfied. He’s plagued by insomnia and paranoia, and misses the adrenaline rush of the Game. He misses the attention. At times, he even hopes the Game Master will find him. And when HP catches the eye of a rich and powerful CEO for all the wrong reasons, he may get his wish. But he quickly learns that sometimes, you have to be careful what you wish for...

The second in a fast-paced, exciting trilogy, *Buzz* will keep you guessing until the end. HP believes the game is over, but is it really just beginning?
