**Animal Hunting and Feeding (Animal Behavior)** Natalie Goldstein

All animals have to eat, but feeding behavior goes far beyond predators and prey. Animals have a variety of ways to find food. Some sit and wait for food to come to them. Others chase or trap their food. Other animals are scavengers and decomposers, breaking down the leftovers of other animals' meals. "Animal Hunting and Feeding" explains these various techniques as well as the importance of food chains and food webs.
