## **Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) Sandra Peel**

1. 1 Historical Aspects and Terminology Granulated metrial gland (GMG) cells are readily identified by their cytoplasmic granules and were observed a number of years before the term "metrial gland" was introduced. A series of papers by Duval in 1891 provided a comprehensive description and a critical review of earlier studies of the placenta of rodents, but it was not until 1902 that the first convincing illustrations of GMG cells appeared in the literature (Jenkinson 1902). Jenkinson described "maternal glycogen cells" in the pregnant mouse uterus and noted that they contained cytoplasmic granules which stained with a variety of dyes. From his detailed description of the appearance and distribution of these maternal glycogen cells it is clear that he had observed what are now called granulated metrial gland cells. In 1911 Ancel and Bouin used the phrase une glande myometriale endocrine to describe a structure appearing between the muscle layers of the uterus at the insertion site of the placenta in rabbits. They described one of the cell types present in the glande myometriale as having the characteristics of glandular cells and noted their content of safraninophilic cytoplasmic granules. A glande myometriale endocrine was also described in the pregnant rat uterus by Weill (1919). He reported that the cellules granuleuses contained acidophilic inclusions and despite the absence of any illustrations in his paper it is apparent that he also had observed GMG cells.

### **From reader reviews:**

#### **Elsie Canada:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite book and reading a reserve. Beside you can solve your problem; you can add your knowledge by the book entitled Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology). Try to make the book Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) as your good friend. It means that it can to become your friend when you feel alone and beside those of course make you smarter than in the past. Yeah, it is very fortunated to suit your needs. The book makes you far more confidence because you can know anything by the book. So , let me make new experience and knowledge with this book.

#### **Terry Holmes:**

Book is to be different for each grade. Book for children till adult are different content. As you may know that book is very important for us. The book Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) ended up being making you to know about other information and of course you can take more information. It is very advantages for you. The reserve Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) is not only giving you a lot more new information but also for being your friend when you really feel bored. You can spend your personal spend time to read your guide. Try to make relationship with the book Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology). You never really feel lose out for everything in case you read some books.

#### **Nancy Page:**

Now a day individuals who Living in the era wherever everything reachable by match the internet and the resources inside can be true or not need people to be aware of each information they get. How many people to be smart in obtaining any information nowadays? Of course the answer is reading a book. Reading through a book can help persons out of this uncertainty Information particularly this Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) book because this book offers you rich info and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it everbody knows.

#### **Antonio Sisson:**

Some individuals said that they feel bored when they reading a publication. They are directly felt it when they get a half parts of the book. You can choose the particular book Granulated Metrial Gland Cells (Advances in Anatomy, Embryology and Cell Biology) to make your reading is interesting. Your skill of reading expertise is developing when you like reading. Try to choose simple book to make you enjoy you just read it and mingle the feeling about book and studying especially. It is to be initially opinion for you to like to start a book and go through it. Beside that the guide Granulated Metrial Gland Cells (Advances in

Anatomy, Embryology and Cell Biology) can to be your brand new friend when you're feel alone and confuse using what must you're doing of their time.
