## **On Film** Stephen Mulhall

The first edition of Stephen Mulhall's acclaimed *On Film* was a study of the four *Alien* films, and made the highly original and controversial argument that films themselves can philosophise. In its second edition, *On Film* increased its breadth and vision considerably to encompass films such as the *Mission: Impossible* series and Steven Spielberg's *Minority Report*.

In this significantly expanded third edition Stephen Mulhall adds new chapters on the Jason Bourne films, the fourth *Mission: Impossible* movie, JJ Abrams' *Star Trek* and *Star Trek: Into Darkness*, and Ridley Scott's *Prometheus* (in which he returns to the *Alien* universe he created). In so doing, Mulhall reappraises in fascinating ways the central issues taken up in earlier editions of *On Film*: the genres of science fiction and thriller, the impact of digital as opposed to photographic modes of technology on the nature of cinema as a medium (and its relation to television), and the fate of sequeldom in mainstream contemporary cinema (with its emphasis on remakes, reboots and multi-media superhero franchises).

*On Film*, third edition is essential reading for anyone interested in philosophy, film theory and cultural studies, and in the way philosophy can enrich our understanding of cinema.
