**MAKE: Technology on Your Time Vol. 1** Mark Frauenfelder Ed.

If you like to tweak, disassemble, re-create, and invent cool new uses for technology, you'll love *MAKE* our new quarterly publication for the inquisitive do-it-yourselfer.

Every issue is packed with projects to help you make the most of all the technology in your life. Everything from home entertainment systems, to laptops, to a host of PDAs is fair game. If there's a way to hack it, tweak it, bend it, or remix it, you will find out about it in *MAKE*.

This isn't another gadget magazine. *MAKE* focuses on cool things you can do to make technology work the way you want it to. The publication is inspired by our bestselling Hacks series books but with a twist. *MAKE* is a mook (rhymes with book). We've combined the excitement, unexpectedness, and visual appeal of a magazine with the permanence and in-depth instructiveness of a how-to book.

Whether you're a geek or hacker who delights in creating new uses for technology, or a Saturday afternoon tinkerer who loves to get his hands dirty, you'll keep every issue of *MAKE* on your bookshelf for years to come. Our premier issue, available in February 2005, includes 220 pages packed with tips and tricks, including:

- how to create a \$14 stabilizer for your video camera with readily available household items
- how to use an ordinary kite to take extraordinary professional quality aerial digital photos
- how to get rid of that tangle of wires by creating your own 5-in-1 network cable
- how to decipher the magnetic stripe on your credit card to find out what your credit card company really knows about you and lots more!

Every quarter, *MAKE* will contain a unique set of innovative ideas and creations for a variety of new technologies, including mobile devices, in-car computers, web services, digital media, wireless and home networking, and computer hardware.
