An endlessly fascinating, beautifully designed survey of time—how long things take, how long things last, and how we spend our days

Our relationship to time is complex and paradoxical: Time stands still. Time also flies. Tomorrow is another day. Yet there's no time like the present. We want to do more in less time, but wish we could slow the clock. And despite all our time-saving devices—iPhones, DVRs, high-speed trains—Americans feel that they have less leisure time than ever.

In an era when our time feels fractured and imperiled, *The Book of Times* encourages readers to ponder time used and time spent. How long does it take to find a new mate, digest a hamburger, or compose a symphony? How much time do we spend daydreaming, texting, and getting ready for work? The book challenges our beliefs and urges us to consider how, and why, some things get faster, some things slow down, and some things never change (the need for seven to eight hours of sleep).

Packed with compelling charts, lists, and quizzes, as well as new and intriguing research, *The Book of Times* is an addictive, browsable, and provocative look at the idea of time from every direction.
