Dating Guide for Men Anthony Ekanem
What do women want? This is a question that has baffled men since the beginning of time and men are no closer to understanding women than we were when we huddled around an open fire every night and lived in caves.

Why are women so hard to decipher? Simply because we try to understand them from a man's point of view without understanding the basic premise that women think differently from men. In fact, women have completely different wiring from that of men and men will never be able to understand them on a logical level, which is how men approach almost everything.
