Therapeutic Applications of Quadruplex Nucleic Acids

Stephen Neidle

Therapeutic Applications of Quadruplex Nucleic Acids Stephen Neidle

The study of G-quadruplexes has emerged in recent years as an important focus of research in nucleic acids. This is now a rapidly growing area, not least because of its potential as a novel approach to cancer therapeutics, and there is much current activity on the design of quadruplex-selective small-molecule ligands and the study of their cellular effects. This timely publication gives a uniquely integrated view of quadruplex nucleic acids that will be a major resource in future drug-discovery strategies.

Therapeutic Applications of Quadruplex Nucleic Acids provides a single comprehensive survey that describes and assesses recent advances in quadruplex therapeutics and targeting strategies. It also covers the underlying fundamentals of such topics as quadruplex structure, small-molecule recognition, biological roles of genomic quadruplexes, and quadruplex informatics.

Written by a world leader in this field, this book is a vital resource for researchers in medicinal chemistry, chemical biology, structural biology, drug discovery, and pharmacology in cancer and other therapeutic areas, as well as for chemists and biologists working on nucleic acids, and will be useful for both active researchers and students in these areas.

From reader reviews:

Jeff Puckett:

This Therapeutic Applications of Quadruplex Nucleic Acids are usually reliable for you who want to certainly be a successful person, why. The key reason why of this Therapeutic Applications of Quadruplex Nucleic Acids can be one of many great books you must have is definitely giving you more than just simple examining food but feed anyone with information that probably will shock your before knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions throughout the e-book and printed versions. Beside that this Therapeutic Applications of Quadruplex Nucleic Acids forcing you to have an enormous of experience such as rich vocabulary, giving you demo of critical thinking that we all know it useful in your day pastime. So , let's have it and revel in reading.

Mary Crouch:

Your reading sixth sense will not betray you actually, why because this Therapeutic Applications of Quadruplex Nucleic Acids publication written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written with good manner for you, still dripping wet every ideas and writing skill only for eliminate your own personal hunger then you still doubt Therapeutic Applications of Quadruplex Nucleic Acids as good book not just by the cover but also by content. This is one publication that can break don't ascertain book by its deal with, so do you still needing yet another sixth sense to pick this specific!?! Oh come on your reading sixth sense already said so why you have to listening to an additional sixth sense.

Tammy Medina:

Reading a book being new life style in this calendar year; every people loves to go through a book. When you examine a book you can get a lot of benefit. When you read ebooks, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and soon. The Therapeutic Applications of Quadruplex Nucleic Acids offer you a new experience in reading through a book.

Christopher Melendez:

What is your hobby? Have you heard which question when you got students? We believe that that issue was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. And also you know that little person just like reading or as studying become their hobby. You must know that reading is very important as well as book as to be the factor. Book is important thing to include you knowledge, except your current teacher or lecturer. You see good news or update in relation to something by book. Different categories of books that can you decide to try be your object. One of them is this Therapeutic Applications of

Quadruplex Nucleic Acids.
