Community Paediatrics (Oxford Specialist Handbooks in Paediatrics) Srinivas Gada

Containing concise but detailed summaries on a comprehensive range of clinical scenarios and conditions likely to be encountered by trainees, paediatricians, therapists, nurses, and allied professionals in their day-to-day practice, Community Paediatrics is the ideal companion for anyone working with children in the community.

The handbook is organized according to the different sub-specialities of community paediatrics, such as child development, neurodevelopmental disorders, and child protection, and incorporates the latest recommendations from current practice, consensus statements, and good practice guidelines.

Written by a vast range of contributors from various disciplines who are local, regional, national or international experts in their field, it also contains sections on support organizations, sources of further information/reading, and useful appendices, such as developmental milestones, growth, and BMI centile charts.

If you are a health professional working or aspiring to work in the community, then this practical, easy-to-carry, quick-reference handbook is a 'must-have' title, enabling the reader to deliver the highest quality holistic child-centred care.
