Packaging for Food Preservation (Food Engineering Series)

Matteo Alessandro Del Nobile, Amalia Conte

Packaging for Food Preservation (Food Engineering Series) Matteo Alessandro Del Nobile, Amalia Conte

The book will be focused on the three most important aspects of food packaging: Modeling, Materials and Packaging Strategies. The modeling section will provide a complete overview of mass transport phenomena in polymers intended for food packaging applications. The materials section will cover the most interesting problem-solving solutions in the field of food packaging, i.e., low environmental impact active films with antimicrobial activity. Lastly, the packaging section will provide an overview of the most recent approaches used to prolong the shelf life of several food products.
