Pomodoro!: A History of the Tomato in Italy (Arts and Traditions of the Table: Perspectives on Culinary History) David Gentilcore

More than just the beloved base ingredient of so many of our favorite dishes, the tomato has generated both profound riches and controversy in its farming, processing, exchange, and consumption. It is a crop infused with national pride and passion for those who grow it, and a symbol of Old World nostalgia for those who claim its history and legacy.

Over time, the tomato has embodied a range of values and meanings. From its domestication in Central America, it has traveled back and forth across the Atlantic, powering a story of aspiration and growth, agriculture and industry, class and identity, and global transition. In this entertaining and organic history, David Gentilcore recounts the surprising rise of the tomato from its New World origin to its Old World significance. From its inauspicious introduction into Renaissance Europe, the tomato came to dominate Italian cuisine and the food industry over the course of three centuries.

Gentilcore explores why elite and peasant cultures took so long to assimilate the tomato into Italian cooking and how it eventually triumphed. He traces the tomato's appearance in medical and agricultural treatises, travel narratives, family recipe books, kitchen accounts, and Italian art, literature, and film. He focuses on Italy's fascination with the tomato, painting a larger portrait of changing trends and habits that began with botanical practices in the sixteenth century and attitudes toward vegetables in the seventeenth and eighteenth centuries, and concluded with the emergence of factory production in the nineteenth. Gentilcore continues with the transformation of the tomato into a national symbol during the years of Italian immigration and Fascism and examines the planetary success of the "Italian" tomato today, detailing its production, representation, and consumption.

Micah Best:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for yourself. As we know

that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Pomodoro!: A History of the Tomato in Italy (Arts and Traditions of the Table: Perspectives on Culinary History) can make you sense more interested to read.
