This ILT Series course, rated 4.9/5.0 in overall quality by ProCert Labs, will prepare students to pass the current CompTIA Security+ 2007 certification exam (available through July 2009). After taking this course, students will understand the field of network security and how it relates to other areas of information technology. This course also provides the broad-based knowledge necessary to prepare for further study in specialized security fields, or it can serve as a capstone course that gives a general introduction to the field. Comes with MeasureUp and CertBlaster exam prep software (download), and a companion CBT program.
